

Athletes 4 Curing Childhood Cancer

We need your support to raise awareness for childhood cancer research... Please take a moment of your time to find out how YOU and your TEAM can help.

(Click on the Ribbon!)

This program is available to high school **football** and **volleyball** teams for **FREE**. It simply requires your team to commit to wearing a sticker or ribbon during the month of **September** (childhood cancer awareness month). This campaign is similar to the **pink** ribbon campaign, which tremendously improved treatments and cure rates for breast cancer.

“Who better to ‘fight’ for our childhood cancer warriors than our athletes?”
